EUROGAMES Ltd is a trading company established in 2006.

The main activities of the company are:

- Production, delivery and service of tourist attractions trains and trailers for trains;
- Reconstruction of special vehicles;
- Changing the structure and the purpose of buses, vans, cars and trucks;
- Renting and management of lines tourist attraction trains and entertainment vehicles.

Our products and services are implemented in accordance with the Integrated Management System Quality, Environmental, Health and Safety at Work **ISO 9001: 2008, ISO 14001: 2004 and BS OHSAS 18001: 2007.**

The company is **certified by the Ministry of Economy** and has a confirmation of SAE International issued to WMI for issuing VIN codes for the produced custom vehicles as well as a **certificate from the Bulgarian Commerce and Industry (BCCI)** for production and trading with tourist trains. We produce custom tourist attraction trains powered by both petrol and gas, diesel and electricity with minimum pollutant emission- Euro 5.

We have a workshop for metal structures, equipped with all necessary machines and equipment for production of chassis, trailers and constructions for cars and trucks. We have a base for repair, maintenance and servicing of cars and trucks, equipped halls with four or two- column lifts and channels for cars and trucks. We have the necessary facilities, equipment and tools for producing and remaking vehicles. The company disposes of machines for the production of glass-laminated products and a camera for painting.

Our company has always strived to achieve and maintain the highest levels of quality products at competitive price and also to adhere to global standards and requirements for manufacture, supply and installation. All mechanisms in the company have a commitment to achieving the highest levels of customer satisfaction.

With its experience, reputation and significant number of completed projects on the design, production and sale of **luxury custom tourist attraction trains**, the company ranks among the largest producing and trading companies in the world.

II. HYBRID ELECTRICAL ATTRACTION TRAIN

Hybrid motor (hybrid drive system) - a combination of a powerful electric motor and gas engine:

- 3310 cm³, 211hp (155 kW);

The biggest advantage - it does not need a charging station!

The locomotive is with:

- 3000 rpm;
- length: up to 4820 mm;
- width: up to 2130 mm;
- height: up to 2250 mm;
- Tires: R 18 ";
- weight: up to 2020 kg;
- LED lighting;
- air brakes;
- eather;
- air conditioning system;
- full electric package;
- tiptronic automatic transmission;
- trip computer;
- stereo system with a large color display;
- possibility of drawing up to four wagon;
- 4x4

III. DIESEL ATTRACTION TRAIN

The locomotive is with:

- Diesel engine Common rail turbo diesel;
- capacity of the engine: 1996 cu. cm;
- maximum power: 143 hp;
- torque: 310 Nm;
- wheelbase: 2700 mm;
- tires: to R 18 ";
- length: up to 4820 mm;
- width: up to 2130 mm;
- height: up to 2200 mm;
- 3000 rpm;
- LED lighting;
- air brakes;
- leather;
- air conditioning system;
- full electric package;
- manual / automatic tiptronic gearbox;
- trip computer;
- stereo system with a large color display;
- possibility of drawing up to four wagon;
- 4x4

IV. ATTRACTION TRAIN – PETROL/GAS

The locomotive is with:

- gasoline engine: from 1497 to 2378 cc;
- maximum power: 126 to 143 hp;
- torque: 200-204 Nm;
- possibility for additional installment of gas system for propane-butane or methane;
- length: up to 4820 mm;
- width: up to 2130 mm;
- height: up to 2345 mm;
- wheelbase: 2700 mm;
- tires: to R 18 ";
- LED lighting;
- air brakes;
- leather;
- air conditioning system;
- full electric package;
- manual / automatic tiptronic gearbox;
- trip computer;
- stereo system with a large color display;
- possibility of drawing up to four wagon;
- 4x4

V. ELECTRIC ATTRACTION TRAIN

The locomotive is with:

- electrical engine: 67,5kW;
- electrical battery: 12V;
- 3 - speed manual transmission;
- hydraulic brake system;
- media player, speakers;
- signal light on the roof;
- length: up to 3950 mm;
- width: up to 1700 mm;
- height: up to 2100 mm;
- weight: up to 2000kg;
- LED lighting;
- air brakes;
- leather;
- air conditioning system;
- full electric package;
- manual / automatic tiptronic gearbox;
- trip computer;
- stereo system with a large color display;
- possibility of drawing up to four wagon;
- 4x4

VI. MINI ATTRACTION TRAIN

The locomotive is with:

- electrical engine of 1.1 Kw to 8 Kw;
- length: up to 10500 mm;
- width: up to 1160 mm;
- height: up to 1920 mm;
- tires: to R 18 ";
- LED lighting;
- air or inertial brakes;
- full electric package;
- stereo system;
- possibility of drawing up to six wagon.

VII. "CLOSED TYPE" WAGON

The wagon "closed type" is:

- for year-round operation;
- with 20-28 seats;
- with the possibility of removing the glass;
- width: up to 1750 mm;
- height: up to 2450 mm;
- length: up to 4450 mm;
- tires: R14 ";
- air brakes;
- heating system;
- sound system;
- possibility for bicycle racks;
- possibility for platform for the disabled people;
- possibility for ski/snowboard stand.

VIII. "HALF-OPEN TYPE" WAGON

The "half-open type" wagon is with:

- 20-28 seats;
- possibility for removable crystal vinyl protecting from rain and wind;
- width: up to 1750 mm;
- height: up to 2450 mm;
- length: up to 4450 mm;
- tires: R14 ";
- air or inertial brakes;
- sound system;
- possibility for bicycle racks;
- possibility for platform for the disabled people.

IX. "OPEN TYPE" WAGON

The wagon "open type" is with:

- 20-28 seats;
- possibility for removable crystal vinyl protecting from rain and wind;
- width: up to 1750 mm;
- height: up to 2450 mm;
- length: up to 4450 mm;
- tires: R14 ";
- air or inertial brakes;
- sound system;
- possibility for bicycle racks;
- possibility for platform for the disabled people.

X. ADDITIONAL CUSTOM EQUIPMENT

The additional custom equipment is:

- bicycle rack;
- electrical platform for disabled people;
- mechanical platform for disabled people;
- support railing;
- handle for disabled people;
- air-conditioning system;
- crystal vinyl protecting from rain and wind;
- ski/snowboard stand;
- tour guide.
